Subject: A quick note

Hi Josh,

I wanted to send you a quick word about how much I enjoyed listening to your recording of the Stations of the Cross the other night. I was in the midst of preparing a fairly significant proposal and having organ music in the background, for whatever reason, is often helpful for concentration. With your recording, I was particularly impressed with your performances and the thought and care you put into each movement. I was also pleased with how well the instrument sounds – both your registrations and the sound engineer's hard work. Bravo to you!

Thanks,

Andrew
