Subject: great job!

Josh,

Thank you so much for a wonderful evening last night (Fri) with your reading of the Dupre "Stations." I hope that you were happy with it too, because, from my point of view, almost everything went off perfectly! Honestly, I think that last night was some of the finest playing that I've heard from you yet: it was really sophisticated music-making on a grand scale, played with much passion and a clear understanding of Dupre's preferred methods of musical development. I hope that you will have an opportunity to share this program with other audiences in the coming years. You should get some mileage outta all that work! :o)

Happy Easter!

Tom
